

A Quick Guide to the Government of India's New IEC Package for Comprehensive Abortion Care

Prominently displayed at CAC facilities, the site signage caters to the general public, underscoring the accessibility of safe abortion services.

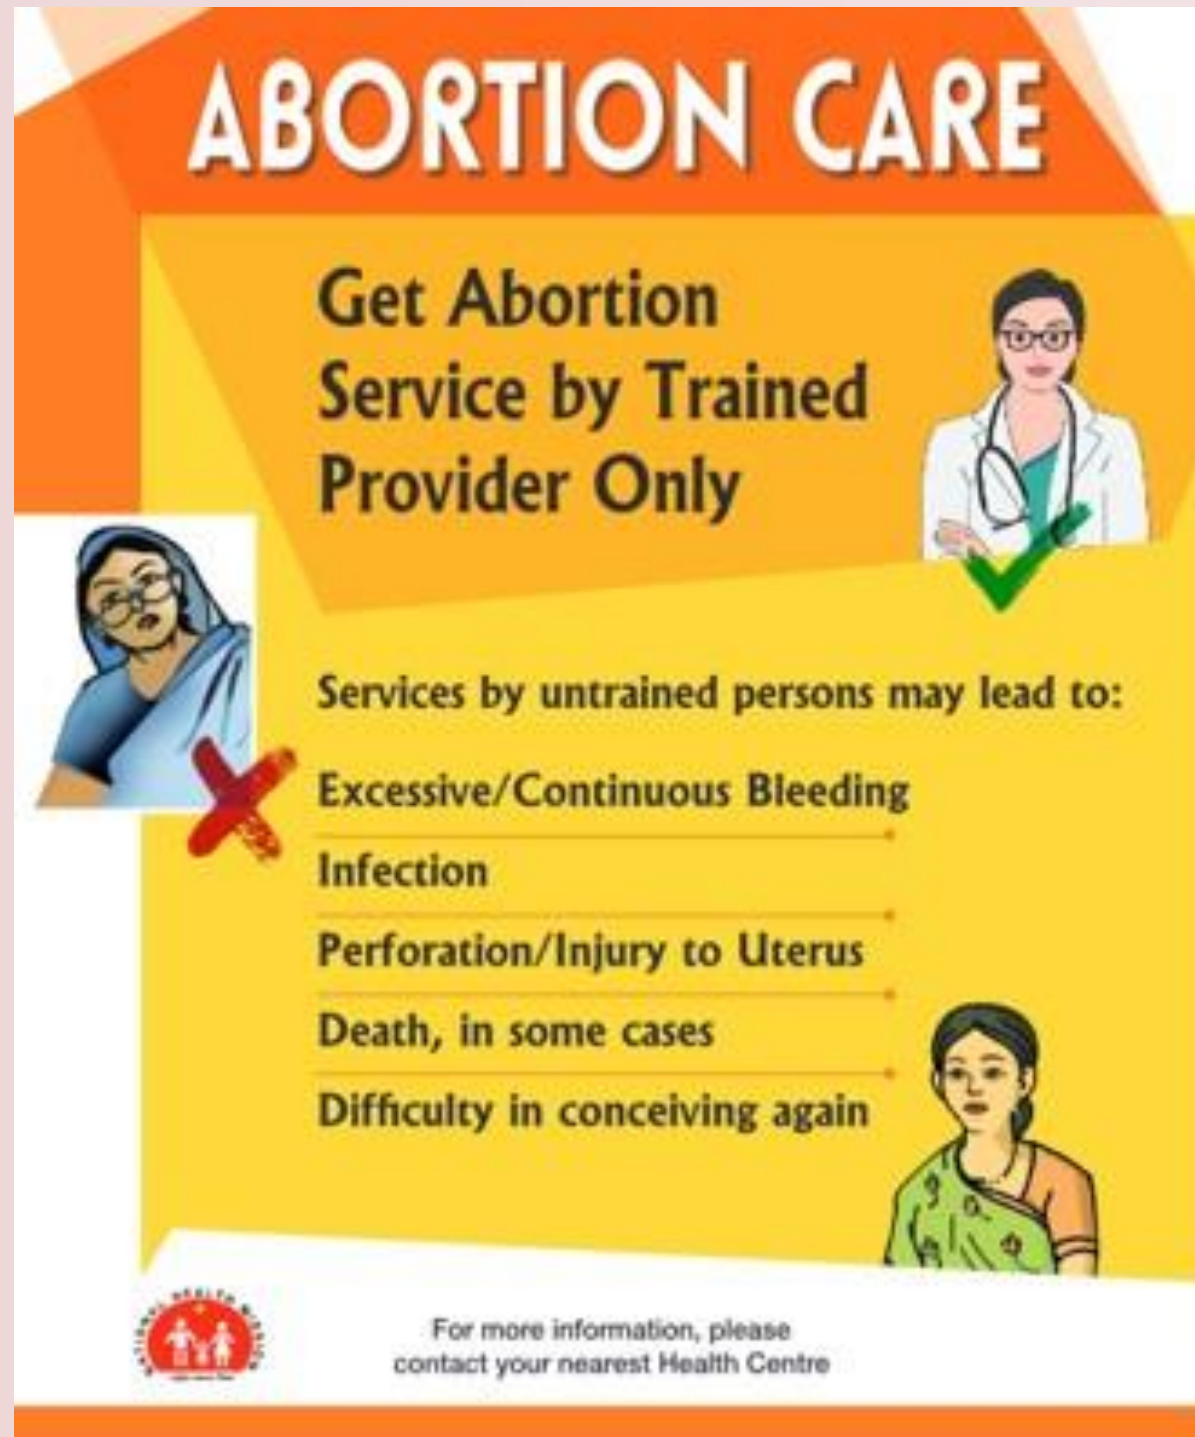

Site signage: Availability of safe abortion services

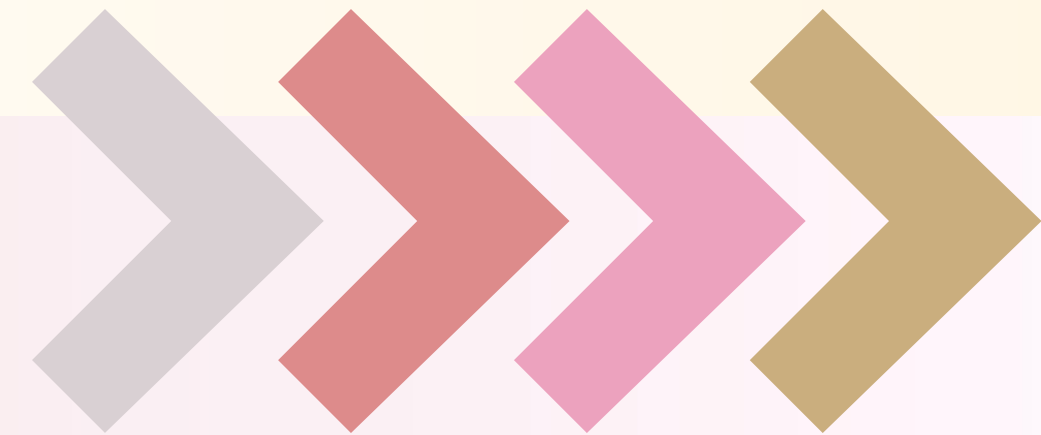

This poster informs the general public, community members, ASHAs, ANMs, and other healthcare workers about the legality of abortion services in India. Emphasizing the importance of early procedures for safety, it encourages individuals to seek services from trained providers at approved sites.

Poster: General information on CAC

This informative poster targets the community, general public, and healthcare workers to raise awareness about the risks associated with abortions performed by untrained individuals. It emphasizes the significance of seeking services from trained providers to prevent potential complications.

Poster: Consequences of unsafe abortion procedures

Designed for ASHAs, ANMs, AWWs, and health workers, this leaflet provides vital information on abortion care. The leaflet includes information on abortion methods, warning signs and symptoms during the abortion process, and postabortion contraceptive methods.

गर्भपात (अबॉर्शन) के बाद गर्भनिरोधन के उपाय:
